OTAKU BHASKAR

How to Use It

- The member whose name is written in this magazine shall receive immense appreciation and good vibes.
- This effect will only take place if the writer has the member's hard work and personality in mind when writing their name. This ensures that the praise is heartfelt and directed at the right person.
- If a member's name is featured in this magazine more than four times they are officially considered a Community Legend, immune to any bad moods for the rest of the week.
- When the same member is praised in two or more different sections, the appreciation is doubled, regardless of which page is seen first.
- If two members are praised within 0.06 seconds of each other, it is considered a "Double Whammy" of Wholesomeness both members receive a massive boost in community respect.
- If the writer accidentally misspells a member's name while praising them, the praise still counts it's the thought that matters! However, if someone intentionally ignores a member's efforts, they miss out on the Good Karma that this magazine provides.
- The appreciation will still take effect even if a member's achievements are spread across different pages. For example, if their creativity is mentioned on the front page and their kindness is mentioned on the back, they are still 100 percent wholesome.

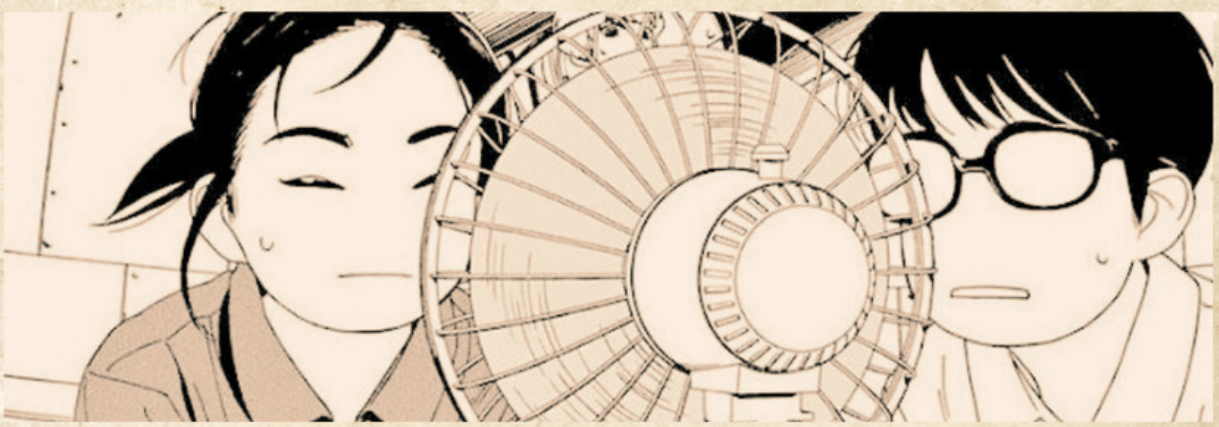
"What is love for you?"

~ By u/Active_Beginning4210



You must have asked yourself a similar question. Well, the answer to this question can be very subjective, and maybe finding that answer in someone is what love is all about. This anime gives us that answer in its own distinctive yet meaningful way.

Insomniacs After School is a high school romance anime. It follows two high school students, Ganta Nakami and Isaki Magari. Both have a sleep disorder, or insomnia, where they can't sleep at night due to their own individual trauma. We follow the lives of these two students dealing with their everyday struggles, and see how, while coping with it, they find the warmth they needed in each other's arms, which makes their feelings truly pure and innocent.

This anime portrays the struggles of teenagers realistically, like how the pressure from even small things can sometimes lead to tiredness and headaches all day long, and how the desire to fit in with everyone can be challenging. It's like how most of us have things we've repressed and bottled up, which can lead to anxiety, depression, or other mental conditions. This series does an amazing job in presenting these things naturally.

CREATIVE CLAN

Insomnia plays a crucial role in the story, as both our main leads suffer from this disorder and share a unique bond because of it. The anime shows how people suffering from insomnia feel and their daily struggles. Both cases of insomnia were derived from their own traumatic experiences and conditions. The way they gradually accept their insomnia is just beautifully portrayed.

The characters of this anime feel real and act like teenagers. There's no fan service or exaggeration about love; just pure, innocent, slow-burn romance which feels truly rewarding. It has a believable, natural progression of love that is deeply developed through time and their compatibility with each other, rather than a sudden realization. Moments like them falling asleep together, the beach scene, and night walks together make the viewer feel the warmth they have for each other.

I absolutely also loved the idea of astronomy and astrophotography in this. The art of this anime truly shines in these moments, making viewers feel the need to go watch the stars together with their loved ones and enjoy the peaceful night life rather than the hustling and bustling day life.

If you want to enjoy a peaceful, realistic, feel-good anime with your loved ones, you can surely give it a try. It's not like watching the same old high school stories. If you are single like me, then you will surely enjoy it more because you have more hope of having this type of romance than others. Maybe you can add another waifu to your list, but be cautious: this anime can make your expectations of love a little higher.

OP casually pointing out that humanity survived the Third Impact and Evangelion got remade before GTA VI released is insane.

OP pulled up with a dangerous question:
If these groups were running for office, who would you trust to lead? No powers involved, only ideology, character, and mentality matter.

OP noticed the romance drought in this sub and decided to drop their underrated gems plus a few upcoming ones to keep on your radar.

OP casually pulled up with a 3D printed Rengoku blade but the custom swing sound effect? That's what made it go from cool to legendary.
